Laptop (= category) kopen	Richtprijs*
Buy with warranty	€ 195
Sales by dealer with warranty	€250
purchase from private individual	€ 175
Laptop for sales	Richtprijs*
trade in at dealer	€ 120
Purchase from a private	€ 100
Auction price	€ 90
Laptop replacement value	Richtprijs*
Replacement value due to total loss	€ 250

* Without having seen and examined a laptop, an exact value cannot be given. The price list assumes a car that is well maintained and does not take into account any damage or broken parts. That is why we work with guide prices in the Price List. These are average prices including VAT.

Explanation

Buying from a dealer with warranty

This is the guide price for a car that you buy from a dealer company. Our guide price is based on the situation that the car is bought with a warranty. Please note that an advertised price from a car company does not always include a warranty. Sometimes you have to pay extra for the warranty. The advertised price does always include all unavoidable costs: you must be able to take the car with you for the stated price. If the price in question states 'Sales price by dealer company, without warranty', then this is an Cicocic guide price for sale without a warranty.

Buying from a brand dealer with warranty

This is the guide price for a car that you buy from a brand dealer. Our guide price is based on the situation that the car is bought with a brand warranty

Purchasing from a private individual

This is the guide price for purchases and sales between private individuals. This is the amount you receive (as seller) or pay (as buyer) when selling and buying a car between private individuals. The buyer cannot claim a warranty or use a dispute settlement scheme.

Ready-to-drive price

The term 'ready-to-drive price' is often used in car advertisements on the internet. This is an advertised minimum price, including all unavoidable costs: you must be able to take the car with you for the stated price. This is a 'take-away price' without warranty and without delivery inspection or maintenance. Often, a warranty and maintenance can be purchased separately.

Inruilen bij een autobedrijf

Dit is de richtprijs voor de situatie dat je een auto inruilt bij een autobedrijf, bij de aanschaf van een andere auto.

Aankoop bij een particulier

Dit is de richtprijs bij aan- en verkoop tussen particulieren onderling. Het gaat om het bedrag dat je ontvangt (als verkoper) of betaalt (als koper) bij verkoop en koop van een auto tussen particulieren. De koper kan geen aanspraak maken op garantie of gebruik maken van een geschillenregeling.

Veilingprijs

Deze richtprijs geeft een indicatie van het bod dat je kunt verwachten als je je auto aanbiedt via een (online) veiling. Uitgaande van een schadevrije auto in een goede conditie is dit een normaal bod. Je auto verkopen middels een veiling kost relatief weinig moeite, voor dat gemak betaal je als ware wel een prijs. Een bod van een (online) veiling ligt doorgaans dan ook wat lager dan verkoop tussen particulieren of inruil bij een autobedrijf. Om een dergelijk bod op waarde te kunnen schatten hebben we de veilingwaarde (ook wel: executiewaarde) opgenomen.

Vervangingswaarde i.v.m. total loss

Als een auto door schade total loss raakt of door diefstal verloren gaat wordt vaak gesproken over de 'dagwaarde'. Vaak wordt die uitgelegd als de inkooprichtprijs, maar dat is in het nadeel van de verzekerde! Wij spreken daarom liever over de vervangingswaarde; de richtprijs waarvoor een consument bij een autobedrijf een gelijkwaardige auto kan terugkopen.

ASUS X205TA-0211AZ3735F laptop Intel Atom® Z3735F 29.5 cm (11.6") HD 2 GB DDR3L-SDRAM 32 GB Flash Windows 8.1 White

Brand : ASUS

Product code: X205TA-0211AZ3735F

Product name : X205TA-0211AZ3735F

Intel Atom Z3735F (2M Cache, 1.33GHz), 2GB DDR3, 32GB Flash, Intel HD Graphics, WLAN 802.11 a/b/g/n, Webcam, Windows 8.1

ASUS X205TA-0211AZ3735F laptop Intel Atom® Z3735F 29.5 cm (11.6") HD 2 GB DDR3L-SDRAM 32 GB Flash Windows 8.1 White:

EeeBookX205 is an affordable, chic and compact 11.6-inch laptop that weighs less than 1kg and is designed for on-the-go students and young professionals. Windows 8.1 with Bing gives EeeBook X205 maximum application compatibility; while Connected Standby technology gives users a smartphone-like computing experience. This enables almost-instant resume from sleep mode and gives users an enhanced internet experience, as Connected Standby means they are always connected to all their social apps and email, even when X205 is in standby mode. Available in four distinctive colors – black, white, gold and red – EeeBook X205 is designed with smooth curves and tactile surfaces to make it the ideal take-anywhere laptop.
